

# Yak Tribe Kayak Shop Tournament Rules & Regulations

NATIONAL KAYAK FISHING COMMUNITY

## THE GOAL:

The purpose and goal of this tournament is to cultivate a friendly environment for kayak fishermen to compete geared around the Yak Tribe Kayak Shop events and gatherings. We will be hosting a bimonthly Yak Tribe party at 2pm at the Yak Tribe Kayak Shop. Our tournaments will take place the morning of the Yak Tribe party (Saturday) and end with a live “trash fish” weigh in at the shop where winners will be announced.

Please come to the Yak Tribe party. Win or lose - it will be good time! We will have FREE raffles, random giveaways, games, music, weigh-ins, and more. Bring your small charcoal grill and lawn chair and let's have an old school block party! We have always made an effort to not just be a social media page but a real community. Hope to see you there!

Sheepshead	12" - 20"
Flounder	12" - 14"

### HOW TO PROPERLY PHOTOGRAPH AND SUBMIT YOUR FISH

26. You must use a measuring board long enough to measure your fish without adding on any additional measuring devices. Our biggest slot fish in this tournament is 27 inches. We recommend using a board at least 27 inches long. You may not use rulers, tape measures, or any other type of measuring devices to extend the length of your board if your board is too short.
27. Your identifier and code **MUST BE IN THE PHOTO**. At this time, your identifier will be released the morning of the tournament before launch. You may write the code on the back of your hand, on a piece of plastic, or on anything you see fit to use. Lay the code on the end of your board or on your lap. Just make sure it is in the photo. Your code and identifier may **NOT LAY ON THE FISH**. Previously we would mail out Yak Tribe tokens but for this series, we will have last minute fisherman signing up and want to allow everyone to participate.
28. The fishes mouth must be placed all the way up against the bump board as shown in the picture above. Do not allow any gaps between the fishes furthest most point. On some fish that may be the nose and on others that may be the mouth. Push your fish all the way up against the bump board to take your photo.
29. You may not **fully cover** any part of the fish. Do not cover the eyes. Do not cover the tail. Do not cover the mouth. Do not place your entire hand over the fish to hold it down. All of these rules are in place to make sure a fish has not been altered in any way either in person or digitally to increase or decrease the length of the fish.
  1. **Nothing** may be in the mouth of the fish. Do not have fish grips or lures in the mouth of your fish when submitting a photo.
  2. You may hold your fish down using one hand if needed. **DO NOT COVER THE ENTIRE FISH WITH YOUR HAND**. If you do, the fish will be disqualified. Again, all of these rules are in place to make sure a fish has not been altered in any way either in person or digitally to increase or decrease the length of the fish.
  3. The entire fish must be in the photo.
  4. Bungees or ropes are not permitted to hold your fish down to the board.
  5. The tail must lay naturally on the board. Hard pinching the tail to make the fish longer is not permitted. Overly fanning out the tail to make the fish shorter is not permitted.
  6. If the tail of the fish touches the 27 inch line on your board, it will not be considered over-slot. It will be approved as a 27 inch fish. If the tail of the fish passes the 27 inch line on your board and does not reach the next line marker on your board, it will not be accepted. It will be considered over-slot. To clarity further: tails touching the 27" hash line is okay. Passing the 27" hash line will not be accepted.
  7. All submissions will be rounded down to the nearest quarter inch. Example: If you submit a fish that is 24.6", it will be rounded down to 24.5". It will not be rounded up to 24.75". The fish in the photo above was submitted and approved at 21.75" or 21 and 3/4 inches.

**IMPORTANT NOTE REGARDING VIOLATIONS:** All final fish rulings will be subject to the tournament director's discretion and judgement. If caught cheating, not only will you be banned from all Yak Tribe and Yak Tribe partner tournaments, but law enforcement will be notified and charges will be pursued. We have zero tolerance for cheating, foul play, or mischievous behavior. All fish that are weighed in are subject to being cut open for inspection.
